

## ENVIRONMENTAL , SAFETY AND HEALTH STATEMENT OF PRINCIPLES

At RRI Energy, we are committed to caring for our environment and communities we serve. We are also committed to ensuring a safe, healthy, and enjoyable workplace while creating value for every customer. Our guiding principles in Environmental, Safety, and Health policies are as follows:

**Responsibility** We acknowledge our responsibility to design, build and operate our facilities in compliance with applicable environmental and safety requirements and to provide a safe workplace.

**Accountability** We assign the appropriate environmental and safety responsibilities to each facility, and we regularly measure and document performance. Compensation policies of the company are crafted to assure accountability to these principles.

**Education** We encourage our employees and contractors to respect their own health and safety needs as well as that of others, and to respect the environment. We provide appropriate training for our employees so that they may work in an environmentally responsible and safe manner.

**Relationships** We continuously seek to establish constructive long-term relationships with public stakeholders and regulatory agencies, and to promote forthright and open communication.

**Partnership** We are a recognized national leader in forging partnerships with public groups, regulatory agencies, and individual participants on projects that are proactive in preserving natural resources.

**Involvement** We are actively engaged in legislative and regulatory processes in order to contribute toward effective and well-founded environmental and safety laws and regulations.

**Progress** We continue to evaluate and consider new technologies and practices aimed at enhancing the environmental and safety performance of our facilities.
